THE MOST  
GOOD™

# Advent Wreath

Make this Advent wreath using handprints. It's a fun way to count down the days until Christmas!

## What you need

- Paper plate
- Construction paper
- Markers or crayons
- Glue

## How to make it

Cut the center out of the paper plate to form a wreath shape. Trace 24 handprints onto green construction paper and cut out. Write a good deed on each hand.

Starting on December 1st, pick one cut-out hand. Do the good deed listed on the hand, and then glue the hand onto the wreath. Do this every day to help you count down the days until Christmas.

On Christmas day,  
add a big ribbon  
to your completed  
handprint wreath  
if you'd like!
