THE MOST  
GOOD™

# Angel Ornament

## What you need

- Fabric stiffener
- Metallic thread & ribbon
- 6" crocheted doily
- Feathers
- 1" Styrofoam ball
- Glue
- Plastic wrap
- Covered wire

Make an angel doily ornament as a memory of this year for your tree.

## How to make it

Follow bottle instructions to prepare work surface for stiffening doily. Saturate 6" doily in stiffener. Squeeze out excess. Place a 1" Styrofoam ball in center. Gather doily under ball. Secure with covered wire for head. Stuff bottom of doily with plastic wrap to fluff out for dress or shape as desired. Allow to dry.

Tie an 8" piece of silver ribbon around neck into a bow. Glue two feathers to back for wings. Cut an 8" piece of silver thread. Tie into a loop, and glue to top of head for hanger.

Hang your newly created angel on your tree as a family tradition each year.
